OBJECTIVE

Highly motivated 3rd-year CSE with strong programming, DSA skills. Seeking an opportunity to apply my expertise in Python, DSA, and ML in a challenging environment to build scalable solutions.

EDUCATION

B.Tech in Computer Science, ANITS College of Engineering, Sangivalasa
CGPA: 7.82/10

Expected 2026
AP, India

Intermediate (MPC), Apswrst kopperla College
Percentage: 86%

2020 - 2022
AP, India

SKILLS

Programming Languages	Python, R, C, Java, HTML, CSS, JS
Frameworks/Libraries	Bootstrap, NumPy, Pandas, Matplotlib, TensorFlow, scikit-learn
Databases	MySQL, SQLite, PostgreSQL, NoSQL
Developer Tools	Kaggle, Jupyter Notebook, Git/Github, Google Colab, VS Code, Anaconda, LaTeX
Academic Coursework	Data Structures, Competitive Programming, Operating Systems, CN, OOP, DBMS
Certifications	System Design Generative AI, python (Cisco) Data Science, PowerBI (Forage) AI, ML (internship studio) DSA (tutodude) Data science & Analytics (hp life) Data-mining, Data-interpretation (Great Learning) (View)
Soft Skills	Problem-solving, Critical Thinking, Communication

EXPERIENCE

BCGX(forage) | Data-Science Intern | Remote

April 2024 - June 2024

- **Data Analysis & Visualization:** Utilized Python, NumPy, Pandas, Matplotlib, and Seaborn. Data Cleaned, EDA, Data processed, Model Evaluation and Data visualization on the COVID-19 and Customer Churn dataset.
- **ML Implementation:** Enhanced COVID-19 prediction accuracy by 15% using feature engineering. Decision Tree.
- **Advanced Data Processing:** Gained experience in data aggregation, feature engineering, and cleaning, optimizing datasets for better insights and model performance.
- **Collaboration & Continuous Learning:** Collaborated with faculty and utilized Kaggle and other online tools to enhance my data science knowledge and keep up with industry trends.

([Project Link](#))

PROJECTS

Registration website: Developed a fully responsive web application leveraging HTML, CSS, PHP and JavaScript. Integrated the new real-time experience. ([Project Link](#))

RockPaperScissor Game: Developed a classic RockPaperScissor Game using Python and random module, featuring continuous player-guessed rps and a visually appealing design. Implemented real-time user interaction and potential for future enhancements like dynamic difficulty. ([Project Link](#))

Call Center PowerBI: Optimized call center operations by analyzing 100,000+ records, reducing response time by 20% using PowerBI & DAX functions. Researched so many papers. (unable to provide the link)

EXTRA-CURRICULAR ACTIVITIES

- Manage [instagram](#) insta content with creative thinking. Every post has its own character, few posts are there but different from others.
- Passion for listening to music (background scores, romantic, pop songs, etc.).
- Avid chess player – enjoy strategic gameplay that sharpens my thinking.
- [kaggle](#) | [leetcode](#) | [unstop](#)
